THE BASICS OF BETTING AT THE RACES

You can have a fantastic day whether you place a bet or not. We encourage you to gamble responsibly, whether you put a bet down outside in the betting ring or at one of the on-site betting shops or Tote.

1. Take a look at a racecard either by using **The Jockey Club app**, or by purchasing one on arrival at the racecourse.
2. Visit the horses in the Parade Ring before the race starts – you are looking for alert – but not unsettled – horses.
3. Choose if you would like to place a bet at the 'Bookies' (Bookmakers), in front of the Grandstand or at one of the betting shops, located in various places in the grounds.

The Tote betting points are slightly different – you're not betting against a bookie, it is more like a lottery as your stakes go into a pool.

4. When you make a bet, state the number of the horse and the stake – for example **'No. 4, £5 to win'** or **'No. 4, £5 each way'**, meaning you are spending **£10** overall and you will win a percentage if the horse places 2nd or 3rd (not applicable if the race has less than four horses running).
5. Make sure you keep your betting slip! If you're on to a winner don't celebrate too soon – wait for the 'weighed in' announcement which confirms the jockeys have been weighed with their kit and the result is official.
6. You can now go back to the respective bookie, betting shop or Tote and claim your winnings!

WE HOPE YOU
ENJOY YOUR DAY!
